Sew-on-o-gram

Letters, Scallops, Designs
and Emblems

Genuine Embroidered Letters, Scallops, Designs and Emblems of real Embroidery Cotton, and as pretty as those that are hand-embroidered. These are mounted on a patented cloth which holds the initial or design in place until it is thoroughly secured on the article to be embroidered. Various styles of type in letters, and both designs and letters in several colors.

How to Use the Sew-on-o-gram

Place the Sew-on-o-gram on the article to be embroidered, tacking it into the desired position by a few stitches through the heavy parts; then firmly attaching the heavy parts along the sides just as if you were hemming. Whip over the fine parts or slim stems of the letter or design.

After the Sew-on-o-gram is firmly secured in place, take a stiff brush (preferably a nail brush) tap the brown cloth vigorously with the points of the bristles as shown here, and the background will disappear. As the brown cloth is of very delicate texture care should be exercised in handling before Sew-on-o-gram is attached.
